DETAILED ACTION

Claims 1-11 are under consideration in this application.

Claims 12-22 are held withdrawn from consideration as being drawn to nonelected subject matter 37 CFR 1.142 (b).

Election/Restrictions

Applicant's election without traverse of Group II and the compound of example 10 (page 41) in the reply filed on April 21, 2008 is acknowledged.

This application has been examined with respect to the elected compounds wherein A is thiazole (optionally substituted by non-heterocyclic groups) and B is 1-thiazolyl-2-pyridyl-ethynes (optionally substituted by non-heterocyclic groups) set forth in claim 1, exclusively. All additional heterocycles and heteroaryl groups pertain to nonelected subject matter.

Allowable Subject Matter

The prior art does not disclose or make obvious the isotopically labeled compounds.

Claim 1 is objected to as containing non elected subject matter. The objection may be overcome by limiting the claim to the subject matter indicated as being examinable supra. . A claim so limited would appear allowable.

Claims 2-11 presented in independent form or made dependent on an allowable claim, would appear allowable, otherwise it is objected to as being dependent on a non allowed claim.
